## Venue map & travel directions

The Edinburgh Centre for Carbon Innovation (ECCI) is a hub for the knowledge, innovation and skills required to create a low carbon economy. The ECCI provides the place and space for 'low carbon leaders' and networks from business, finance and the public sector to work together to deliver a low carbon future.

The ECCI is based in Edinburgh's historic Old High School which has been transformed by recent renovations and is on course to becoming the first ever development of its kind to achieve an "outstanding" rating from BREEAM, the world's leading sustainability rating system for the built environment.

### *Edinburgh Centre for Carbon Innovation, High School Yards, Edinburgh EH1 1LZ*

#### Walk

It takes approximately fifteen minutes to walk from Edinburgh Waverley Train Station to ECCI. Plan your walking journey using [www.walkit.com](http://www.walkit.com).

#### Bike

ECCI has shower facilities, two secure bike stores and a number of bike stands on site. To find out local cycle routes to ECCI, you can use the [www.cyclestreets.net](http://www.cyclestreets.net) journey planner.

#### Bus

Buses from all over the city travel to ECCI. [www.mybustracker.co.uk](http://www.mybustracker.co.uk) allows you to see up to the minute information on the bus you would like to catch and also when your bus will arrive at the bus stop. You can check online or on your phone.

#### Car

ECCI does not have its own car park. There is limited on-street parking in the area. It is expensive and designed for short stays. If, however, you have a [Blue Badge](#) for disabled parking the charges are waived.

There are two car parks within walking distance of ECCI. One is in Blackfriars Street, just off the Royal Mile and the other is at St John's Hill, on the Pleasance. For more information on parking see the [City of Edinburgh Council parking web page](#).
