

## **Learning for Sustainability Scotland (LfS Scotland):**

Scotland's United Nations Recognised Regional Centre of Expertise (RCE) in Education for Sustainable Development

### **Vision**

Our vision is for Learning for Sustainability to infuse the whole of Scottish society, building our capacity to contribute to sustainability – locally, nationally and globally.

### **Mission**

Our mission is to work co-operatively to harness the transformative potential of Learning for Sustainability to support a sustainable world: where people and communities value and are engaged with the natural environment; societies are inclusive and equitable; and a vibrant economy contributes to flourishing ecosystems and social justice.

### **Code of Conduct for Learning for Sustainability Scotland**

In line with our vision and mission, we recognise that Learning for Sustainability is about a manner of working as much as a topic of focus. As a network, we recognise the benefits of collaborative gain. We believe that by adopting the following principles we will be better able to achieve our Mission and Objectives.

**Collaboration** – recognising that we can achieve our aims through working together, acknowledging that we may share a broad vision and ethos but seeing that we may have different perspectives on pathways to sustainability

**Respect** – for ourselves, for each other, for our members, for the community and for the natural environment of Scotland and beyond

**Integrity** - in our intentions and behaviour, recognising and acting in our roles and responsibilities and declaring conflicts of interest where appropriate

**Creativity** – in our thinking and actions, drawing on our heritage and engaging with arts and culture, enabling us to envision and innovate for a sustainable future
