

# How to Learn for a Better Future through youth work - school partnerships

[YouthLink Scotland/ Learning for Sustainability Scotland webinar 25 February 2021](#)

## Resources shared

### Youthlink Scotland Learning for Sustainability Hub

<https://www.youthlinkscotland.org/programmes/learning-for-sustainability/resources/>

Join Learning for Sustainability Scotland [www.learningforsustainabilityscotland.org](http://www.learningforsustainabilityscotland.org)

The **Global Competence PISA report** that Julie mentioned in her presentation: <https://www.oecd.org/pisa/pisa-2018-global-competence.htm>

**SCOTDEC and their fellow Development Education Centres** have a wonderful range of free resources to help you embed global citizenship themes in your practice. Have a look at their searchable database:

## Events

Climate Hustings for Young People <https://www.youthlinkscotland.org/news/february-2021/party-leaders-to-feature-in-young-peoples-climate-hot-seat-event/>

## Ideas shared in 'chat'

- I think Lfs supports a pride of place also which is so important to young people and encouraging positive behaviours
- I think there's a certain amount of leading by example with action as well- are LfS leaders engaged in wider action themselves? - don't need to be an expert, just need to care!
- Value of youth work is to be partners in the learning journey, you definitely don't need to be an expert but learn together
- Think many parts of CfE fit very comfortably with youth and community based models.
- "Help everyone find their unique genius"
